

Experts in Continuous Monitoring

What are these webinars about?

Our webinars provide a series of bite-size training events which provide detailed insights into the world of ground gas!

Each webinar is designed to be done either as stand-alone or combined with some, or all, of the others to build a broad understanding of the subject. So, take your pick!

How long are the webinars?

Each webinar has an 1 hour presentation – followed by a short Q&A session with our technical experts.

Who are they for?

We designed our webinars to be accessible for a range of experience, from graduates, new to the topic, through to experienced professionals. Our Q&A section allows you to ask any questions you need answering on ground gas – from the basic to the advanced.

Join our experts

Our webinars are led by Simon Talbot, GGS founder and Managing Director, and John Naylor our Technical Director. As respected technical experts and industry leaders, they are perfectly placed to guide you through the technical content of our webinars.

What do they cost?

For this year's programme, we will only be charging a nominal fee of £5 per webinar.

How do I register?

You will need to register and pay separately for each webinar you want to attend. Click on the relevant webinar title to register and pay.

GGs 2021 training programme

Webinars 2021

Webinar 1: Introduction to continuous ground gas monitoring

Successfully delivered, January 2021

Webinar 2: Best practice in continuous ground gas monitoring

Successfully delivered, February 2021

Webinar 3: Geology 101 for ground gas contamination

Successfully delivered, March 2021

[Webinar 4: Continuous monitoring and the Source-Pathway-Receptor pollutant linkage](#)

10:30am BST Wednesday, April 28th

[Webinar 5: The Lines of Evidence approach to ground-gas risk assessment](#)

10:30am BST Wednesday, May 19th

[Webinar 6: Radon – Sources, hazards, monitoring and remediation](#)

10:30am BST Wednesday, June 16th

[Webinar 7: Mine gas hazards, monitoring and risk assessment](#)

10:30am BST Wednesday, July 14th
